

**Barrier-free access for stairs
to accommodate curves,
landings or out-of-the-way parking**

**Reliable performance you
can count on**

**Built for your exact
specifications**

Savaria® Stairfriend Stairlift

CURVED STAIRLIFT

For many people, stairs become a major barrier in accessing and enjoying the home. The Savaria Stairfriend stairlift can eliminate the barrier of stairs providing safe and easy access to another floor. The Stairfriend is designed to be installed on stairs that feature a curve, an intermediate landing, or when out-of-the-way parking is desired.

Smooth riding, comfortable and reliable, the Savaria Stairlift features a double rail system for strength and durability. The seat features an open lower back design for excellent comfort while riding the chair. The lift is easy to operate with controls on the armrest as well as two included radio frequency remote controls. Savaria custom bends the rail to your exact specifications based on computer-aided design software and photo measuring. This is all done with industry leading lead times.

Savaria® Stairfriend Stairlift

CURVED STAIRLIFT

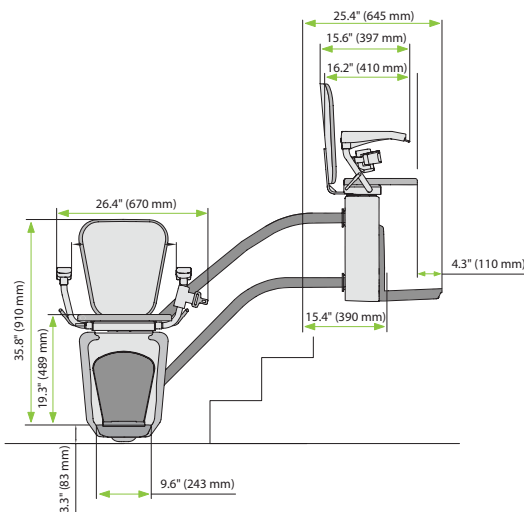

- Battery charging at top and bottom and optional intermediate landings to ensure that the stairlift is always charged and ready to go, even if there's a power failure
- Choice of seat and back rest with wipe-clean synthetic leather
- Capacity up to 350 lbs
- On-board controls with soft start and smooth stop operation
- Seat swivels and locks into position for safe boarding and deboarding, retractable seat belt
- Two radio frequency remote control included, offering greater range and control of device from other rooms
- Overspeed governor and obstruction sensors to stop the chair if it meets an object in both up or down travel directions
- Folds up to less than 15" (39 cm) to allow easy access to the stairs when unit is not in use
- Reliable rack and pinion drive with sturdy, twin steer tube rail construction
- Unit is custom-built for curves, turns, landings and parking, and can be mounted on either side of stairs
- Onboard diagnostics to identify any service issues
- Options: 90° or 180° parking, top or bottom overrun, keyless access, emergency stop button, and extra long seatbelt
